ABOUT ME

I'm a software developer that shifted my focus into the Flutter framework with hands-on experience building cross-platform apps. I've worked extensively with both Supabase and Firebase, which allows me to create reliable, real-time applications that scale well. I focus on following the best practices while keeping the user experience smooth and intuitive. What I enjoy most is taking an idea and turning it into a mobile app that people love to use.

WORK EXPERIENCE

- **Frontend Web Developer**
Blue Edge Business Solutions
March - June 2021
 - Collaborated with a remote team to design and develop client based website using modern web design principles. My task was to organize and maintain the frontend, especially the CSS/HTML side and change on behalf of the client's request.
