📍 Brgy. J.P. Rizal, 1st street, Guingona Subdv., Butuan City, Agusan Del Norte, Philippines, 8600.

ABOUT ME

Mobile Software developer with experience in building cross-platform mobile applications using the Flutter framework and its environments. Had hands-on experience working with Supabase and PostgreSQL, enabling me to create robust and scalable apps with real-time capabilities. Currently, I'm expanding my skill set by learning Swift to deepen my understanding of native iOS development. I enjoy turning ideas into smooth, user-friendly mobile experiences.

WORK EXPERIENCE

- ### Web Design
  Blue Edge Business Solutions

  March - June 2021

  - Collaborated with a remote team to design and develop user-friendly websites using modern web design principles.
