EXPERIENCE

Wordpress Developer

03/2020 - 07/2020

ItsALovelyLife

- Maintain checkup and configurations of themes and C panels according to client's request. Using Trello for project management and slack for team communication. Altogether the site was hosted on BlueHost Domain

Flutter Developer

05/2025 - 12/2025

Father Saturnino Urios University

- Collaborated within a cross-functional team to design and develop a mobile application for real-time rice disease detection using machine learning.
- Solely architected a user-centric mobile interface tailored for field use, eliminating the need for controlled environments or white backgrounds for image capture.
- Integrated a custom-trained Convolutional Neural Network (CNN) into the mobile framework, ensuring seamless model inference and high prediction accuracy.

Flutter Developer

11/2025 - 02/2026

Upwork (Client Based)

- Spearheaded the end-to-end development of a niche travel application for women traveling to Bali, managing the full lifecycle from initial UI/UX design to final deployment.
- Solely architected and implemented a robust full-stack solution, ensuring seamless communication between the frontend interface and backend services.
- Integrated a suite of essential travel APIs, including real-time weather forecasting, dynamic currency exchange rates, and interactive map services for enhanced navigation.
- Developed a secure monetization layer by implementing a Paywall system using Stripe to manage subscriptions and premium content access.
- Weekly standup update with client through WhatsApp.

Flutter Developer

11/2025 - 03/2026

The Random Technologies Singapore

- Collaborated within a cross-functional development team to build an AI-powered mobile application focused on professional training and skill enhancement.
- Implemented task assigned screens based on what was given by the scrum master.
- Utilized Notion for task breakdown, sprint planning, and team-wide assignment tracking
- Participated in weekly stand-up meetings to report progress, address blockers, and align development priorities

Flutter Developer (Internship)

01/2026 - Present

FSUU Data Science Analytics Center

- Lead developer for flutter based application and integration of two CNN models into a singular platform.
- Participated in daily meetings and team deliverables.
- Utilized two research papers to further push for production and deployment.

EDUCATION

Computer Science
Father Saturnino Urios University - Bachelor of Science

05/2026

SKILLS

- Flutter | Dart
- VsCode | Xcode | Antigravity
- Model training | Convolutional Neural Networks
- Canva | Design | Mockup | Prototyping
- Version Control (Github)
- Supabase | Firebase | Appwrite
- Clean Architecture | MCV
- Communication | Standups
